evolving technique and making dances

WINTER INTENSIVE IN AMSTERDAM
JANUARY 9 UNTIL 20, 2017
(WEEKEND OFF | 10 DAYS WORKSHOP)

Julyen Hamilton's teaching investigates deeply the creative act and the technique needed to accompany and facilitate it. His vision of technique is one which observes how things are made, how they function and how knowledge, experience and intuition can be used to create the work we each need to make. It naturally enters the world of physiology, philosophy, culture, imagination and the future. In recent years the compositional elements of major concern have been time, space, dramaturgy, music and the voice; they stem from his experience as a dancer who creates and organises material instantly before the public. The basic work is the handling of the body and the 'speaking' from it in space, motion and time. Its coordination and its relationship to the material it creates - and then to the sharing of it in performance. His ability to distil and convey essential principles allows dancers from a wide range of backgrounds to engage in his methodology.

about

Julyen Hamilton is a dancer / choreographer / poet and dancer. He has been making and performing dances for 40 years throughout the world. Born and brought up in England he trained in London in the 1970's, a time of radical experimentation. He has been an exponent of innovative performance since that time. His work is mostly improvised: he composes dance works instantly as well as the texts which mostly accompany them. His work with text is unique. It fuses naturally his long-term writing practice with his refined skills in dancing. When working with his company 'Allen's Line' he directs dancers and lighting designers to make and perform work through this same immediacy. Since the 80's he has performed constantly in close collaboration with many high quality musicians from all over Europe. It is with some of these musicians that he gives readings of his poetry. He
